

Graduate School of Global Pharmaceutical Industry and Clinical Pharmacy

Major:

Pharmaceutical and Biomedical Science

Nutraceuticals and Cosmeceuticals

Pharmaceutical Counseling

Introduction

The Graduate School of Global Pharmaceutical Industry and Clinical Pharmacy at Ajou University was established in 2013. Our 30-credit master's degree program includes a variety of required and elective courses that allow students to achieve individual academic goals, in the context of either a thesis or non-thesis option. The entire courses are offered on weekends over 16 weeks by various methods such as regular course, accelerated course, and web-enhanced course. Graduates of the program can pursue a variety of career opportunities in clinical pharmacy, biopharmaceutical or neutral-cosmetics industry.

Mission

We are committed to maintaining an educational environment for all students which prepares them for a career of excellence in a variety of healthcare industry. We ensure optimal opportunities for students, faculty, and administration, including all backgrounds and levels of diversity, to achieve full potential.

Goals and Objectives

We focus on the following areas:

1. We continue to improve education quality and relevance of our programs to ensure our students' success.
2. We promote collaborative and experiential learning that prepares students for a rapidly changing healthcare environment.
3. We support faculty development and professional training so that the school will continue its success in teaching, outreach, and professional service.
